## **Speaker Bios**

### **Dr Patrick Kelly ONZM**

Patrick is the clinical director of Auckland's Starship Children's Hospital child protection team. He was awarded the ONZM for services to children's health and is a respected child protection expert and medical educator.

### **Brendan Crozier**

Brendan is the telehealth manager for SESLHD and he is the telehealth coordinator for the Norfolk Island Support team. Brendan has been in discussion with NSW health staff regarding the implementation of medical forensic telehealth on Norfolk Island. He has a background in clinical psychology.

### **Dr Adam Bartlett**

Adam is a paediatric infectious specialist at Sydney Children's Hospital. He is currently undertaking a PhD in the research area of perinatal HIV infection through the Kirby institute, UNSW.

### **Dr Paul Hotton**

Paul is a community paediatrician and staff specialist in community child health at Liverpool Hospital. He has recently published an analysis of child protection medical assessments and the outcomes for children referred to his child protection clinic.

### **Dr Dimitra Tzoumi**

Dimitra is the director of the SCH Randwick child protection unit. Recently she stepped into the role of Senior clinical advisor in child protection for the NSW ministry of health.

### **Dr Susan Marks**

Susan is the director of the SCH Westmead child protection unit. She is a senior lecturer in forensic medicine for Monash University, responsible for the 'non-accidental injury in children' units of study.

### **Dale Tolliday OAM**

Dale is the clinical advisor for sexual and violent behaviour to NSW health. His work with people who have sexually harmed others spans 30 years. His professional background is in social work and law.

### **Dr Lydia Garside and Yvette Rouse**

Lydia is a child protection specialist in the SCH Randwick child protection unit and Yvette Rouse is a senior social worker in the unit.
